NOTES & DEFINITIONS

- GROWTH FACTOR**
2010 service population / 1999 service population
- GROWTH AREA**
Additional space needed to provide current level of services for population anticipated for 2010
Calculated by multiplying the growth factor times current area, then subtracting current area
- FUNCTIONAL NEEDS AREA**
Additional area required to meet today’s program needs
Needs identified by librarians; space calculated by applying standard unit allocations
Note that requests for additional shelving area for existing collection types have been included with “growth” needs; only shelving for new collection categories is listed in this section.

¹Service populations, and holdings listed for bookmobile libraries include only data from the county in which the fixed facility is located, although the library may provide mobile service in other areas. The Iron County Bookmobile, for, example, provides mobile service in Washington County.

TOTAL AREA NEEDED v. LIBRARY STANDARDS

AREA SUMMARY:
LIBRARIES SERVING 5,000 TO 9,999 PEOPLE
